

## **ENVIRONMENTAL HEALTH & SAFETY ROLE**

A sampling of the awards received by DPC member companies:

The American Exploration & Production Council (AXPC) members are proud of their safety and environmental records and the many awards and recognition received from the agencies that govern the oil and gas business. Even among larger exploration and production companies, the AXPC member companies are industry leaders in providing a safe workplace for employees, contractors and the communities in which they operate. Environmental stewardship is an integral part of all phases of our business, from shooting seismic, drilling, developing and eventually returning the land or offshore lease to its original condition.

Here are just a few of the recent awards received by AXPC member companies:

### **Anadarko**

Anadarko Petroleum Corp. has been named the 2002 "Operator of the Year" by the Oklahoma Corporation Commission's District 3 office.

The award is based on the company's prudence as an operator in the field and its accuracy and thoroughness in completing state required reports and filings.

"We're committed to managing and operating our worldwide assets in the most responsible, conscientious manner and this award validates our efforts." said Mark Pease, Anadarko vice president, U.S. Onshore and Offshore.

Within the jurisdiction of the District 3 office in Duncan, Anadarko has extensive operations totaling about 900 operated oil and gas wells across Grady, Garvin and McClain counties.
